

ProjectPack
Office Agent

Bring project work *into focus.*

A private, auditable office agent that turns scattered

AMD ROCm / HIP

llama.cpp

Qwen3.6-35B

Local RAG • FAISS + BM25

ONE CONTROLLED WORKFLOW

From source files to an accountable project

01 / INPUT

Upload project materials and a task CSV/XLSX into a project-scoped workspace.

Architecture

UI

React workbench — project creation, runs, downloads

API

FastAPI — controlled runner: scan → index → retrieve →

RAG

Safe import · FAISS + BM25 hybrid retrieval · project-scope

LLM

llama.cpp (HIP/ROCm) — chat :8000 + embeddings :8080

OUT

Report · risk CSV · next-week plan · structured JSON

Optimised for AMD Radeon

Qwen3.6-35B runs locally through llama.cpp HIP on ROCm with f embeddings.

PROOF OF EXECUTION

Measured on an AMD Radeon GPU.

~70

tok/s · Qwen3.6 inference @ 16K ctx

ProjectPack Office Agent · Team PLASMA · Track 2 · AMD Radeon Hacka
